THE COMPLETE MATCH PACKAGE

Make their best soccer easy to see.

One athlete. One complete match, including both halves. Reviewed highlights, finished edits and a private collection your family can watch, download and share.

Your athlete hub account is free
Create a free athlete hub account, choose your package and submit your order, authorized video and athlete details. GameGlow checks that the footage can be used and confirms by email before charging you. Your match package is reviewed by a person, delivered to your private athlete hub, and followed by a completion email. Delivery: 48-72 hours.

The moments matter more than the count

The highlight target is 3-10+ distinct worthwhile plays. Playing time, involvement, visibility and usable footage affect what can be delivered. The package requires at least three usable plays. We review both halves; finding three clips does not end the search. Replays, crops and alternate formats never count as new plays.

A complete delivery for one match

Your collection includes the reviewed highlight library; 3-5 featured custom edits in landscape and vertical; a combined Recruiting Reel; a separate combined Social Reel; one personalized match graphic; supported clickable field-map markers; and the private athlete hub.

You provide the recording and athlete details

Share authorized Trace, Veo or other footage for both halves, match date and opponent, jersey number and color, position, and a current photo or same-match reference. Known moments are useful clues; you do not need to locate every play yourself.

Full refund within 30 days if unhappy. Recruiting outcomes are not guaranteed.

INCLUDED DELIVERABLES

A purpose for every piece.

Deliverable	What your family receives
Reviewed Match Highlights	Target **3-10+ distinct worthwhile plays**, with at least three usable, verified plays. Useful build-up and outcome, clear athlete identification and individual downloads.
Featured Custom Edits	**3-5 selected plays**: five when usable, minimum three. Each receives landscape and true 9:16 vertical versions. These enhance library plays; they are not additional distinct plays.
Combined Recruiting Reel	One landscape video combining position-relevant contributions, clear identification, field context and the complete main action at match speed.
Separate Social Reel	A separate combined 9:16 video with readable action and purposeful pacing, ready to download and share from your phone.
Personalized Match Graphic	One shareable image made with approved athlete imagery and supported match details.
Clickable Field Map	Supported reviewed markers open the corresponding clips. Approximate zones are labeled; clips without supported locations remain in the library.
Private Athlete Hub	Files organized by match, viewing, downloads and correction requests, with **12 months of private access** per delivered match. Downloaded copies are yours to keep.

FINISHING AND SHARING

Two formats.
A clear view of the play.

Every featured custom edit includes a landscape version and a true 9:16 vertical version. The two combined reels remain separate deliverables.

Landscape and recruiting presentation
Keep the athlete identifiable, preserve the lead-in and outcome, and show the main action at normal speed. Useful framing, discreet identification cues and selective replays can clarify the play.

Vertical edits and your Social Reel
Individual vertical edits use centered action, brief player identification, one short replay and a clean end card. Preserve the athlete, ball, complete action and outcome. The separate combined Social Reel brings selected moments together in a phone-friendly 9:16 video with readable action and purposeful pacing.

Audio you can use
No music is baked into the default social exports. Keep suitable original audio or use a silent version so your family can add its preferred music in the destination platform. Any separately requested music must be approved and usable for its intended destination.

Field-map context
The map describes reviewed selected actions, not a continuous tracking record. A marker links to the corresponding clip. A labeled approximate zone is used when precise placement cannot be supported; locations are never invented.

Your private match collection
Your private match collection is included, with 12 months of access per delivered match. Your downloaded files remain yours to keep. Promotional use of athlete material requires parent approval.

Statistical reports, player rankings and continuous tracking are outside this media package. Recruiting outcomes are not guaranteed.

PLANS AND OPTIONAL PRODUCTS

One match or ongoing support.

Plan	Price	Included matches
Single Match	$79	One complete match. One-time purchase.
Tournament Pack	$189	Three complete matches, used within 60 days from purchase.
Monthly 2	$119 / month	Two matches per service month. No carryover.
Monthly 4	$199 / month	Four matches per service month. Up to two unused matches carry over once into the next month.
Yearly	$1,990 upfront	Twelve months; four matches per service month, plus one Season Showcase Reel. Renewal requires express agreement.

Monthly 4 and Yearly: up to two unused matches carry over once into the next service month. Carryover matches are used first and expire at the end of that month. Monthly 2 has no carryover. Yearly match allocations are monthly, not a freely pooled annual bank.

Optional purchase	Price	Scope
Extra member match	$59	After the four included matches in a service month.
Season Showcase Reel	$149	A 2-4 minute reel from up to 20 approved clips. Uses no match credit. One is included with Yearly.
Additional Custom Edits	$9 each / 3 for $24	Each additional reviewed play receives landscape and vertical versions.

ORDERING, DELIVERY AND SUPPORT

Your order in four steps.

1 Create your free athlete hub account
Sign up at hub.gameglowhq.com. Review the current plans and choose the package that fits your needs.

2 Submit your order and video
Submit authorized Trace, Veo or other footage through an accessible share link or video export, with athlete details and both halves. Both halves count as one match, including two-file Trace exports. Standard match length is up to 90 minutes plus stoppage time. Never send your platform password.

3 Preliminary check, then payment
GameGlow checks that your video can be used and emails confirmation. You are not charged until the video is confirmed. If it cannot be used, we request another recording and no payment is processed.

4 Human review and delivery
Your completed media is reviewed by a person before delivery to your private athlete hub. Receive your completion email and files in 48-72 hours. Watch, download and save your files; private access lasts 12 months per delivered match.

Feedback, corrections and satisfaction
Full refund within 30 days if you are unhappy. Fewer than three usable plays: another match or a full refund. You are not charged until the video is confirmed for use. Use the hub to request corrections to our work; those corrections remain free.
